Acacia SupaSleek™ Collection.

Best of design and technology.
Just got sleeker.

Best of Design and Technology.

When it comes to the finer details, nothing comes close to the Acacia SupaSleek™ Collection. Every curve is thoughtfully crafted, every gear is meticulously assembled. The essential and refined geometrical shape forms the basis of this minimalistic collection. The best has just elevated for the better.

Just Got Sleeker.

Inspired by architectural slim, Acacia SupaSleek™ now boasts an ultra-sleek profile for that sleeker, modern style with zero compromises on comfort and technology. Look no further. Slim is the new now.

Thinner Than Ever.

Beneath these slim curves, Acacia SupaSleek™ Collection is designed with purposeful innovation to create highly sophisticated environments with a minimal and architectural look and feel.

CrystaSleek

Ultra-slim is not impossible. With much dedication and innovation, our CrystaSleek seat and cover made using a double injection molding process, enhances durability at the same time retaining a 30mm thin profile. What's more, it creates a slimmer optical illusion of the seat cover to complete the minimalistic look.

Thinner Tank Lid

We took it a step further and redesign a 17mm thin, sleek tank lid. All in the name of aesthetic.

ThinEdge Tech

At 5mm thin, it is almost like an artpiece to match any bathroom. Made possible only with ThinEdge ceramic technology, Acacia SupaSleek™ basin is a true lasting beauty.

Ceramic Drainage

Unlike conventional chrome wastes, our pillow-spherical ceramic drainage wastes blends in seamlessly with our basin for the luxurious look.

Uncompromising Technology - HygieneClean System

Taking hygiene to the next level, we promise - no dirt, no stains, no bacteria. With HygieneClean technologies and innovation, you can put your mind at ease.

PowerRim Tech and Double Vortex Flushing System

The rimless design is engineered to prevent the accumulation of dirt, germs and bacteria for better hygiene and ease of cleaning. Our innovative Double Vortex Flushing System utilizes 2 openings for water to create a strong whirlpool around the bowl, effectively removing both heavy and light wastes.

Aqua Ceramic

All our toilets are glazed with Aqua Ceramic, engineered to prevent accumulation of dirt and dark ring from forming on ceramic surface. The award-winning super hydrophilic technology always ensures a spotless toilet.

ComfortClean

When it comes to safety and hygiene, we never compromise. ComfortClean effectively eliminates E. coli bacteria and other harmful bacteria.

Human Centric.

In every design, we put human experience first.
This is how we touch every day lives.

Raised Edge

Framed raised edge prevents splashes and promotes easy cleaning.
At the same time completing the ultra-slim style.

EcoStart Faucets

Unlike conventional mixers, Acacia Evolution EcoStart Faucet releases cold water instead of warm water upon lifting the lever. This saves you precious energy as it prevents the boiler from heating up, resulting in up to 30% energy savings. To obtain hot water, you only need to move the lever to the left.

Airnergize Technology

Airnergize Technology in Acacia Evolution handshower provides you with a luxurious shower experience. The technology works by drawing air into the water stream via a cleverly concealed opening at the bottom of the handshower. The water droplets are infused with air bubbles, giving you a feeling of a full shower spray, yet saving water by 20%.

Click Technology

By providing a resistance midway when lifting the lever, this technology gives you better water volume control, saving you precious water.

Toilets

One Piece Toilet
L747 x W385 x H634mm
CL20075-6DACTCBT (S-trap 305mm)
CL20075-6DACTPTT (P-trap 190mm)

Close Coupled Toilet
L741 x W385 x H741mm
CL23075-6DACTCBT (S-trap 305mm)
CL23075-6DACTPTT (P-trap 190mm)

Close Coupled Back To Wall Toilet
