# VANITY COLLECTION

SPACE SOLUTIONS FOR BETTER LIVING

*American  
Standard*

## IS YOUR CHILD HIDING TOYS IN YOUR VANITY?

To create more space within the cabinet, the basin's drainage in selected series is designed to be at the rear corner instead of its typical location at the center. Smart dividers and storage boxes provide clear partitioning of large and small items in the cabinet.

WE HAVE MADE **CLEANING**  
**EFFORTLESS** FOR YOU.

Cleaning is minimized by a specially designed integrated wash basin that encompasses dry, semi-wet and wet zones. It is complemented with a Japanese-designed pop-up drainage system for debris and hair collection plus well-positioned grooves and ribs to ensure efficient water drainage.

## GOING THE EXTRA MILE FOR YOU.

Beyond storage, the vanity collection also pays attention to user habits to maximize its functionality. With design, comfort and safety in mind, the vanities offer durability, ease of use and assurance for the users.

### SPACECREATE

Creates extra usable space in the bathroom.

### SOFT-CLOSING DOORS & DRAWERS

Doors and drawers come with quiet closing.

### STRONG MOISTURE RESISTANCE

Protection against deformation under high humidity conditions.

### GREEN & SAFE

Comply with the European EO/E1 standard for formaldehyde emissions.

### ANTI-CORROSION & ANTI-MOLD

Protection against corrosion and mold for metal hardware.

MODERN EDGE™

Inspired by present day urbanites, the minimalist Modern Edge™ series is edgy with clean lines and colors for an uncluttered look.
